MANAGEMENT'S DISCUSSIONS AND ANALYSIS

As we mentioned to you last year, we have completed a thorough review of the business and certain specific goals including Transforming our commodity Chemical Business (Phthalic Anhydride) to be globally competitive in size & profitability.

Grow our existing Derivatives Businesses, which serve the Food and Cosmetic, and other Industries, building strong businesses of significant size in each area.

We have now put these strategies into implementation and they are already bearing good results in the last 4 to 5 months.

We expect further improvement of the Company in these areas.

This year has started off extremely competitive after a reasonable situation in the previous year. While the prices of Raw material went up, margins of Finished Product went down significantly causing poor result in the first 8 months.

The various initiatives that we had begun, have started to yield results from Q3 end, in terms of reduced costs, faster operating cycles, better funds management, and capacity utilization, all resulting in improved competitiveness and profitability; even in a difficult market situation.

These will yield positive results during the regular up-cycles in the market, and allow us to be competitive even during the down-cycles.

The improvements in Technology that were under implementation last year have contributed to Energy reduction and Plant improvement.

The Government's intervention in Dumping has been positive.

The Specialty Chemicals Areas viz., the Food Ingredients, & Cosmetic Chemicals have grown well and profitably. Separate Teams now focus on growth in India and in International markets.

Valuation of Inventories and Stocks

The Company during the last 15 years or so has been valuing its Inventories / Stocks of Raw Materials, Finished Goods and Work-in-Progress, at Weighted Average method.

During the last few years, this has been found to cause significant variation between the recent & current Purchases and Sales and the Inventories and Stocks values reported in the Financial Books.

In the last few Quarters due to a very large volatility, these variations have caused Operating issues such as difficulties in Costing, misalignment between Business Decision making which is based on First-in and First-out (FIFO) / Current Market prices with respect to the Financial Valuation, and Pricing issues and Marketing issues.

For Commodity products which are our main Businesses, in a volatile environment FIFO is the preferred Business Valuation method, as it will most correctly reflects the current realities.

The Auditors have for the last few years been discussing this change in value procedure from Weighted Average to FIFO method.

As the discrepancy has become very aggravated during the last half year leading to differences as high as Rs. 15 cr. to Rs. 20 cr. in the Purchase and Sales value in the last Quarter, it has been discussed by the Board to change the valuation method from Weighted Average to FIFO.

This has been based on the recommendation by the Business Review and Audit Committees. After discussion this has been accepted by the Board and it has been decided to implement it, however, from 1st April 2012.

Managements' Reply to qualification given in the Auditors' Report

With regard to the qualification made by the Auditors' in their report, since our subsidiary Optimistic Organic Sdn. Bhd (OOSB) is now operating profitably and has started improving further, the Board believes that the amounts referred to in Para 4 are fully recoverable.

Financial and Operating performance

Company achieved a Net Profit of ₹ 478 lakhs Compared to Net profit of ₹ 1,855 lakhs in the previous year.

Contribution to Exchequer

The amounts paid to the Central and State Exchequer by way of Excise Duty, Sales Tax, Customs duties (incl. paid to supplier), Income Tax, etc is about ₹ 9,751 lakhs on Net Sales of about ₹ 91,764 lakhs. That is around 10.63 % of Company's Sales is contributions to the Exchequer.

Research and Development

The Company's in-house Research and Development facility is approved by the Government of India, Department of Science and Technology, and under Section 35 (2AB) of the Income Tax, 1961. It is focusing on improving quality of our Fine Chemicals, Food Ingredients and Derivatives businesses, as also in terms of Grades, Applications, etc.

An amount of ₹ 233 lakhs (₹ 237 lakhs) has been spent during the year for these projects on which the Company avails a weighted deduction of 200 % (150 %)

Risks and concerns

As a Commodity Industry, our main product Phthalic Anhydride and Maleic Anhydride are exposed to sharp cycles and are resulting in profitability pressures from time to time.

The other areas which could upset our plans are Raw material prices & sourcing, Dumped Imports and Forex fluctuations, and Manufacturing Risks.

Current Year

While there has been a general slowdown in Industry, our Commodity Business continuous to have good growth. Raw Material prices and Finished Product prices have reached an all time record and though it is very difficult for the customer, we and they have had to adjust, and work closely in this area.

On the Specialty Businesses we are doing well and will be running at maximum capacity. The improvement programmes started in the last 1 – 1.5 years, have started producing results last year and we expect further improvements during the current year. The manufacturing is running smoothly and our supply chain and other areas have improved.

We expect this to be a Year of growth.

Vedavalli Vidyalaya Senior Secondary School, Walaja - CBSE (1994)

Vedavalli Higher Secondary School, Walaja - Tamilnadu State Board (1999)

Vedavalli Vidyalaya School, Ranipet - CBSE (2003)

Two core beliefs that have guided us are:

- ◆ 'Learning by doing' is the best way to understand fundamental concepts thoroughly
- ◆ Learning can take place only in a fear-free atmosphere.

Spread over two campuses with good facilities for congenial atmosphere of learning, we continue our mission to provide holistic education. More than 2300 students study in our schools. We give you a sample of our activities during the year for you to get a feel of how learning takes place here.

Grandparents were happy when the KG children gave them a glimpse of their work on 'Grandparents day'. Parents were thrilled to receive postcard greetings after their children visited the post office.

Primary school children dressed up as Bharathiar and sang his songs. In traditional costumes, children danced their way into the hearts of the audience to highlight Tamil culture. Value education through stories and activities helped clarify many conflicting issues for middle school children. Continuous Comprehensive Evaluation activities were evidenced by the wonderful charts put up by the students of the high school on the display boards. Rigorous training for the Board exams coupled with supervision of caring teachers for students' well being was visible in the higher secondary sections.

Activity packed special weeks in Science, Maths, English, Environment and Sports provided ample opportunities for children to explore, experiment, experience and understand many things. Projects, exposure visits and field trips enabled learning. Book fairs were organized. Programmes on Teachers' Day and Children's Day helped to understand and appreciate each other's priorities. Traditional sports and games were rediscovered in activities and displays on the Sports day. A variety of students' talents found expression on the Annual day. Computers skills learnt throughout the year were demonstrated by all classes on a day. The Art and Craft exhibition displayed the work of the students in all the classes and left the visitors spell bound.

Dr. Arvind Gupta demonstrated scientific principles in action by making toys out of trash. Environment activist Mr. Srinivasan highlighted the need for waste management. Eco Warrior Mr. Yoganathan stressed upon the need for growing trees. Soil Biologist Dr. Sultan Ismail impressed upon the need to protect Mother Earth. Ms. Devika explained the relevance of Gandhian principle of Ahimsa. Mr. Arun Karthik, an alumna who plays for the IPL interacted with the children.

The training in school enables students to perform well not only in public examinations but also in national competitions. Our students also won prizes in zonal, district and CBSE sports events. Our alumni stand out because of their confidence and competence. They are team leaders because of their analytical thinking, communication and inter-personal skills. We are proud of our students and alumni.

The tiny tots who stepped into our school now come back to admit their children. We welcome you to visit us. Our children will be eager to show you around the school and explain how learning takes place here.

Thirumalai Charity Trust

Responding to a need,

Reaching out to the poor...

“Bringing the rural poor together in building their own future” — That’s TCT, Thirumalai Charity Trust, started in 1970 by the Thirumalai Group of Industries. Volunteerism, women empowerment and community involvement have been the hallmark of our programmes. We count on the involvement of our many volunteers, women beneficiaries, treated alcoholics, disabled people and their families. We enjoy the goodwill of the local community. We currently serve more than 100,000 people in 25,000 families in 225 villages of Vellore District in Tamilnadu.

Because of our three decades of engagement with the community, we are uniquely positioned to develop a good community health model. We started the Thirumalai Mission Hospital in April 2010 as a not-for-profit facility to provide accessible, affordable quality healthcare to all.

The hospital, located on a 5-acre plot now has 30 beds in a built up area of 15,000 sq.ft., spread over three floors. Equipped with modern facilities, the hospital provides a comprehensive range of services, through a team of highly qualified and experienced surgeons and physicians.

The highlights of 2011–2012 include the following:

- ◆ Nearly 40,000 patients were given primary health care in the villages.
- ◆ The hospital provided second level of care to nearly 16,000 patients in the outpatients department and more than 200 patients were given in-patient care.
- ◆ More than 2000 patients were served in camps at the hospital.
- ◆ In our 20th de-addiction camp, 30 persons received help. At a meeting of the beneficiaries, the treated alcoholics and their family members resolved to sensitise the rural families about drinking and come together for protecting children and women from violence.
- ◆ Nearly 200 senior citizens were assisted for cataract surgery.
- ◆ More than 15,000 students were checked up in schools.
- ◆ In a pilot programme for screening women for cervical and breast cancer, 670 women were screened by our gynaecologist in the villages. Those with cancer and possible risks of cancer are being followed up and treatment plan worked out.
- ◆ Nearly 200 women were screened for osteoporosis with the help of Dexa Bone scan. We are providing treatment with calcium & vitamin D supplements, and counseling and follow-up for those with risks and problems.
- ◆ The hospital facilities were improved with the expansion on the second floor.
- ◆ The laboratory, the medical record system and the training for the staff received a lot of attention for improving the quality of work.

Every aspect of the functioning of Thirumalai Mission Hospital is guided by a quality policy that stresses on transparency, ethics and adherence to good, standard medical practices.

As we reach out to more people to serve in more ways, we also reach out to those who would like to participate in our efforts. Visit us in person to get a first hand feel of our activities.
