Dear Sir,

Re: Appointment of Additional Director

We have to inform you that Shri. Rajeev Pandia (DIN 00021730) has been appointed as an Additional Director on the Board of Thirumalai Chemicals Limited with effect from August 01, 2018.

Shri. Rajeev Pandia is a graduate in Chemical Engineering from Indian Institute of Technology (IIT), Mumbai, India and holds the Master's degree in the same field from Stanford University, California, USA. During his career spanning 45 years, he has been associated with strategic planning, project evaluation and management, technology transfer, international marketing, Government policies and general management, while focusing on petrochemicals, polymers, elastomers and specialty chemicals.

Among his several achievements are the Distinguished Alumnus Award from IIT, Bombay, Rotary International Award, the Lifetime Achievement Award from Indian Chemical Council, Dr G P Kane Visiting Professorship at UDCT (ICT), honorary Fellowship of Indian Institute of Chemical Engineers and Fellowship of Indian National Academy of Engineering.

Shri. Rajeev Pandia advises several Indian and international companies in the areas of Strategy, Project execution and Operational Excellence. His Board memberships include The Supreme Industries Ltd, Excel Industries Ltd, GRP Ltd and Deepak Phenolics Ltd (India) and Optimistic Organic Sdn Bhd (Malaysia).

This is for your information and record.

Update

A: Status of Previous Announcements:

- 1) The Expansions of Food Ingredients and Derivatives Plants were completed and these are now in operation.
- 2) The revamp and debottlenecking of Phthalic Anhydride Plant is in progress. These are expected to be completed and go into production during late Q4 FY-19.
- 3) Phase 1 of the company's Phthalic Anhydride project at Dahej in Gujarat announced earlier, is expected to commence operation by May 2019.

B: New Proposals:

- 1) The Company has proposed to take up further expansion in Phthalic Anhydride and Derivatives at Dahej in Gujarat.
- 2) The Company's subsidiary in Malaysia has decided to expand its Maleic Anhydride capacity to 65,000 tons / year. This is in addition to its recent expansion completed last year. This will partly feed the Maleic Anhydride derivatives project under construction, and for merchant sales in India and the region.

All the above projects will be funded from internal cash flows.

C:

1. The Company is studying a greenfield facility to produce Food Ingredients in in the US, aimed at the North American and European Market, based on local Gas feedstock.
